DOCUMENTS NEEDED				
Closure Letter, and any conditional closure letter issued <input checked="" type="checkbox"/>				
Copy of most recent deed, including legal description, for all affected properties <input checked="" type="checkbox"/>				
Certified survey map or relevant portion of the recorded plat map (<i>if referenced in the legal description</i>) for all affected properties <input checked="" type="checkbox"/>				
County Parcel ID number, <i>if used for county</i> , for all affected properties <input checked="" type="checkbox"/>				
Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site. <input checked="" type="checkbox"/>				
Detailed Site Map(s) for all affected properties, showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs. <input checked="" type="checkbox"/>				
Tables of Latest Groundwater Analytical Results (no shading or cross-hatching) <input checked="" type="checkbox"/>				
Tables of Latest Soil Analytical Results (no shading or cross-hatching) <input checked="" type="checkbox"/>				
Isoconcentration map(s), <i>if required for site investigation (SI)</i> (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map. <input checked="" type="checkbox"/>				
GW: Table of water level elevations, with sampling dates, and free product noted if present <input checked="" type="checkbox"/>				
GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees) <input checked="" type="checkbox"/>				
SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour <input checked="" type="checkbox"/>				
Geologic cross-sections, <i>if required for SI</i> . (8.5x14' if paper copy) <input checked="" type="checkbox"/>				
RP certified statement that legal descriptions are complete and accurate. <input checked="" type="checkbox"/>				
Copies of off-source notification letters (if applicable) <input type="checkbox"/> NA				
Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW) <input type="checkbox"/> NA				
Copy of (soil or land use) deed restriction (s) or deed notice if any required as a condition of closure <input type="checkbox"/> NA

RE: **Final Closure**

Commerce # 53711-5397-11 WDNR BRRTS # 03-13-000518
Nevin Fish Hatchery, 3911 Fish Hatchery Road, Fitchburg

Dear Mr. Rehlinger:

The Wisconsin Department of Commerce (Commerce) has reviewed the request for case closure prepared by your consultant, BT² Inc, for the site referenced above. It is understood that residual soil and groundwater contamination remains on-site. Commerce has determined that this site does not pose a significant threat to the environment and human health. No further investigation or remedial action is necessary.

Commerce has received all items required as conditions for closure of the site referenced above. This case is now listed as "closed" on the Commerce database and will be included on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual contamination. It is in your best interest to keep all documentation related to the environmental activities that were conducted.

If residual contamination is encountered in the future, it must be managed in accordance with all applicable state and federal regulations. If it is determined that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required.

This letter serves as your written notice of "no further action". Timely filing of your final PECFA claim (if applicable) is encouraged. If your claim is not received within 120 days of the date of this letter, interest costs incurred after 60 days of the date of this letter will not be eligible for PECFA reimbursement.

Thank you for your efforts to bring this case to closure. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 261-5405.

Sincerely,

A handwritten signature in black ink, appearing to read "Jon Heberer".

WARRANTY DEED

THIS INDENTURE, Made this 12th day of August,
A. D. 1937, between Berthold Sauthoff and Mary E. Sauthoff,
his wife, of Dane county, Wisconsin, parties of the first part,
and the State of Wisconsin, party of the second part,

WITNESSETH, That the said parties of the first part, for
and in consideration of the sum of seven hundred and fifty
(\$750.00) dollars to them in hand paid by the party of the
second part, the receipt whereof is hereby confessed and
acknowledged, have given, granted, bargained, sold, remised,
released, aliened, conveyed and confirmed and by these presents
do give, grant, bargain, sell, remise, release, alien, convey
and confirm unto the said party of the second part and its
assigns forever, the following described real estate, situated
in the County of Dane and State of Wisconsin, to-wit:

A tract of land in the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ and the
NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 10, Township 6 N, Range 9 E,
Township of Fitchberg, which is described as follows:

Beginning at the SE corner of the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$
of the above mentioned Section 10; thence West along
the South line of said NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ and the NE $\frac{1}{4}$ of
the NW $\frac{1}{4}$ for a distance of Ninety-six (96) rods; said
line being the center line of the Nine Springs drainage
canal; thence North on a line parallel to the West
line of the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of said Section 10 for a
distance of Forty (40) rods, Seven (7) feet; thence
West on a line parallel to the South line of said NE $\frac{1}{4}$
of the NW $\frac{1}{4}$ for a distance of Eleven Hundred thirty-
nine (1139) feet to a fence which marks the West line
of the said NE $\frac{1}{4}$ of the NW $\frac{1}{4}$; thence North along said
West line for a distance of Forty (40) rods, Seven (7)
feet to the North line of said NE $\frac{1}{4}$ of the NW $\frac{1}{4}$; thence
Southeasterly along Southerly line of land described in
Vol. 110 of Deeds on Page 243 to a point on the East
line of the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ which is Thirteen (13) rods
South from the NE corner thereof; thence South along
said East line Seventeen (17) rods; thence South-
easterly to a point on the East line of the NW $\frac{1}{4}$ of the
NE $\frac{1}{4}$, which is Thirty (30) rods North from the SE
corner thereof; thence South along said East line and
on the center line of the Nine Springs drainage canal
Thirty (30) rods to the point of beginning.

TOGETHER with all and singular the hereditaments and

appurtenances thereunto belonging or in any wise appertaining; and all the estate, right, title, interest, claim or demand whatsoever, of the said party of the first part, either in law or equity, either in possession or expectancy of, in and to the above bargained premises, and their hereditaments and appurtenances.

TO HAVE AND TO HOLD the said premises as above described with the hereditaments and appurtenances, unto the said party of the second part, and to its assigns FOREVER.

AND THE SAID Berthold Sauthoff and Mary E. Sauthoff, parties of the first part, do covenant, grant, bargain and agree to and with the said party of the second part, and its assigns, that at the time of the sealing and delivery of these presents they are well seized of the premises above described, as of a good, sure, perfect, absolute and indefeasible estate of inheritance in the law, in fee simple, and that the same are free and clear from all incumbrances whatever, and that the above bargained premises in the quiet and peaceable possession of the said party of the second part, and its assigns, against all and every person or persons lawfully claiming the whole or any part thereof, it will forever

WARRANT AND DEFEND.

IN WITNESS WHEREOF, the parties have hereunto set their hands and seals the day and year first herein written.

Table I (Continued)
Groundwater Analytical Results Summary

NOTE:
 Bold value indicates NR 140 enforcement standard exceedance.

LABORATORY NOTES:

- (1) Also analyzed on 8/15/96. Elevated reporting limit due to sample dilution, sample contained target analyte(s) exceeding instrument calibration range.
- (2) Sample contained fractions lighter and heavier than GRO hydrocarbons. Elevated reporting limit due to sample dilution, sample contained target analyte(s) exceeding instrument calibration range.
- (3) GRO sample contained fractions lighter and heavier than GRO hydrocarbons. Elevated reporting limit due to sample dilution, sample contained target analyte(s) exceeding instrument calibration range. Sample was diluted 1:50.
- (4) Sample exhibits hydrocarbon pattern resembling gasoline. Early and late peaks were present outside of window.
- (5) GRO Analysis - Sample exhibits hydrocarbon pattern resembling gasoline. Early and late peaks were present outside of window.
- (6) GRO Analysis - Sample exhibits hydrocarbon pattern resembling diesel fuel or extremely weathered gasoline. Benzene and MTBE have estimated values, detected at concentrations below LOQ.
- (7) GRO Analysis - Sample exhibits hydrocarbon pattern resembling diesel fuel or extremely weathered gasoline.
- (8) Late eluting hydrocarbons present.
- (9) GRO Analysis - Late eluting hydrocarbons present.
- (10) PVOCS Analysis - Late eluting hydrocarbons present. MTBE Analysis - Matrix interference.
- (11) Higher detection limit due to quality control testing. pH neutral.
- (12) MTBE has an estimated value, concentration was less than LOQ.
- (13) Compound fell outside QC limits for the control spike.
- (14) Chrysene fell outside quality control limits on the control spike.
- (15) o-Xylene and Fluorene have estimated values, concentrations were less than LOQ. GRO sample contained fractions heavier than GRO hydrocarbons. Due to matrix interference, sample contained a surrogate recovery exceeding established QC criteria. 1-Methyl Naphthalene, 2-Methyl Naphthalene, Acenaphthalene, and Fluoranthene have elevated reporting limits due to matrix interference.
- (16) Hump in chromatogram; elevated detection limits. Sample exhibits hydrocarbon pattern resembling gasoline. Late peaks were present outside of window.
- (17) Benzo(a)anthracene, Benzo(b)fluoranthene, Benzo(a,h,i)perylene, Benzo(g,h,i)perylene, Benzo(k)fluoranthene, Chrysene, Dibenz(o,a,h)anthracene, Fluoranthene, Indeno(1,2,3-cd)pyrene, and Pyrene have estimated values, detected at concentrations below LOQ.
- (18) Benzene and Toluene have estimated values, concentrations were less than LOQ.
- (19) Xylenes have an estimated value, concentration was less than LOQ.
- (20) Benzene and GRO have estimated values, concentrations were less than LOQ.
- (21) m&p-Xylene and o-Xylene have estimated values, concentrations were less than LOQ. GRO sample contained fractions lighter than GRO hydrocarbons.
- (22) Benzene has an estimated value, detected at a concentration below LOQ.
- (23) GRO Analysis - Sample exhibits hydrocarbon pattern resembling gasoline. Early peaks were present outside of window. 1,2,4-Trimethylbenzene and 1,3,5-Trimethylbenzene have estimated values, detected at concentrations below LOQ.
- (24) PVOCS Analysis - Does not match typical pattern.
- (25) MTBE Analysis - Matrix interference.
- (26) Sample contains a fraction lighter than the gasoline range organic hydrocarbons. GRO analyzed on 4/12/93.
- (27) Sample pH was 5.0.

NOTES:

1. Well top of MWS was cut 0.34 ft. and resurveyed on July 17, 1995 (resulting in a new elevation of 873.85).

2. Depth to water measurements and water level measurements made after this date are entered in the second column for MWS.

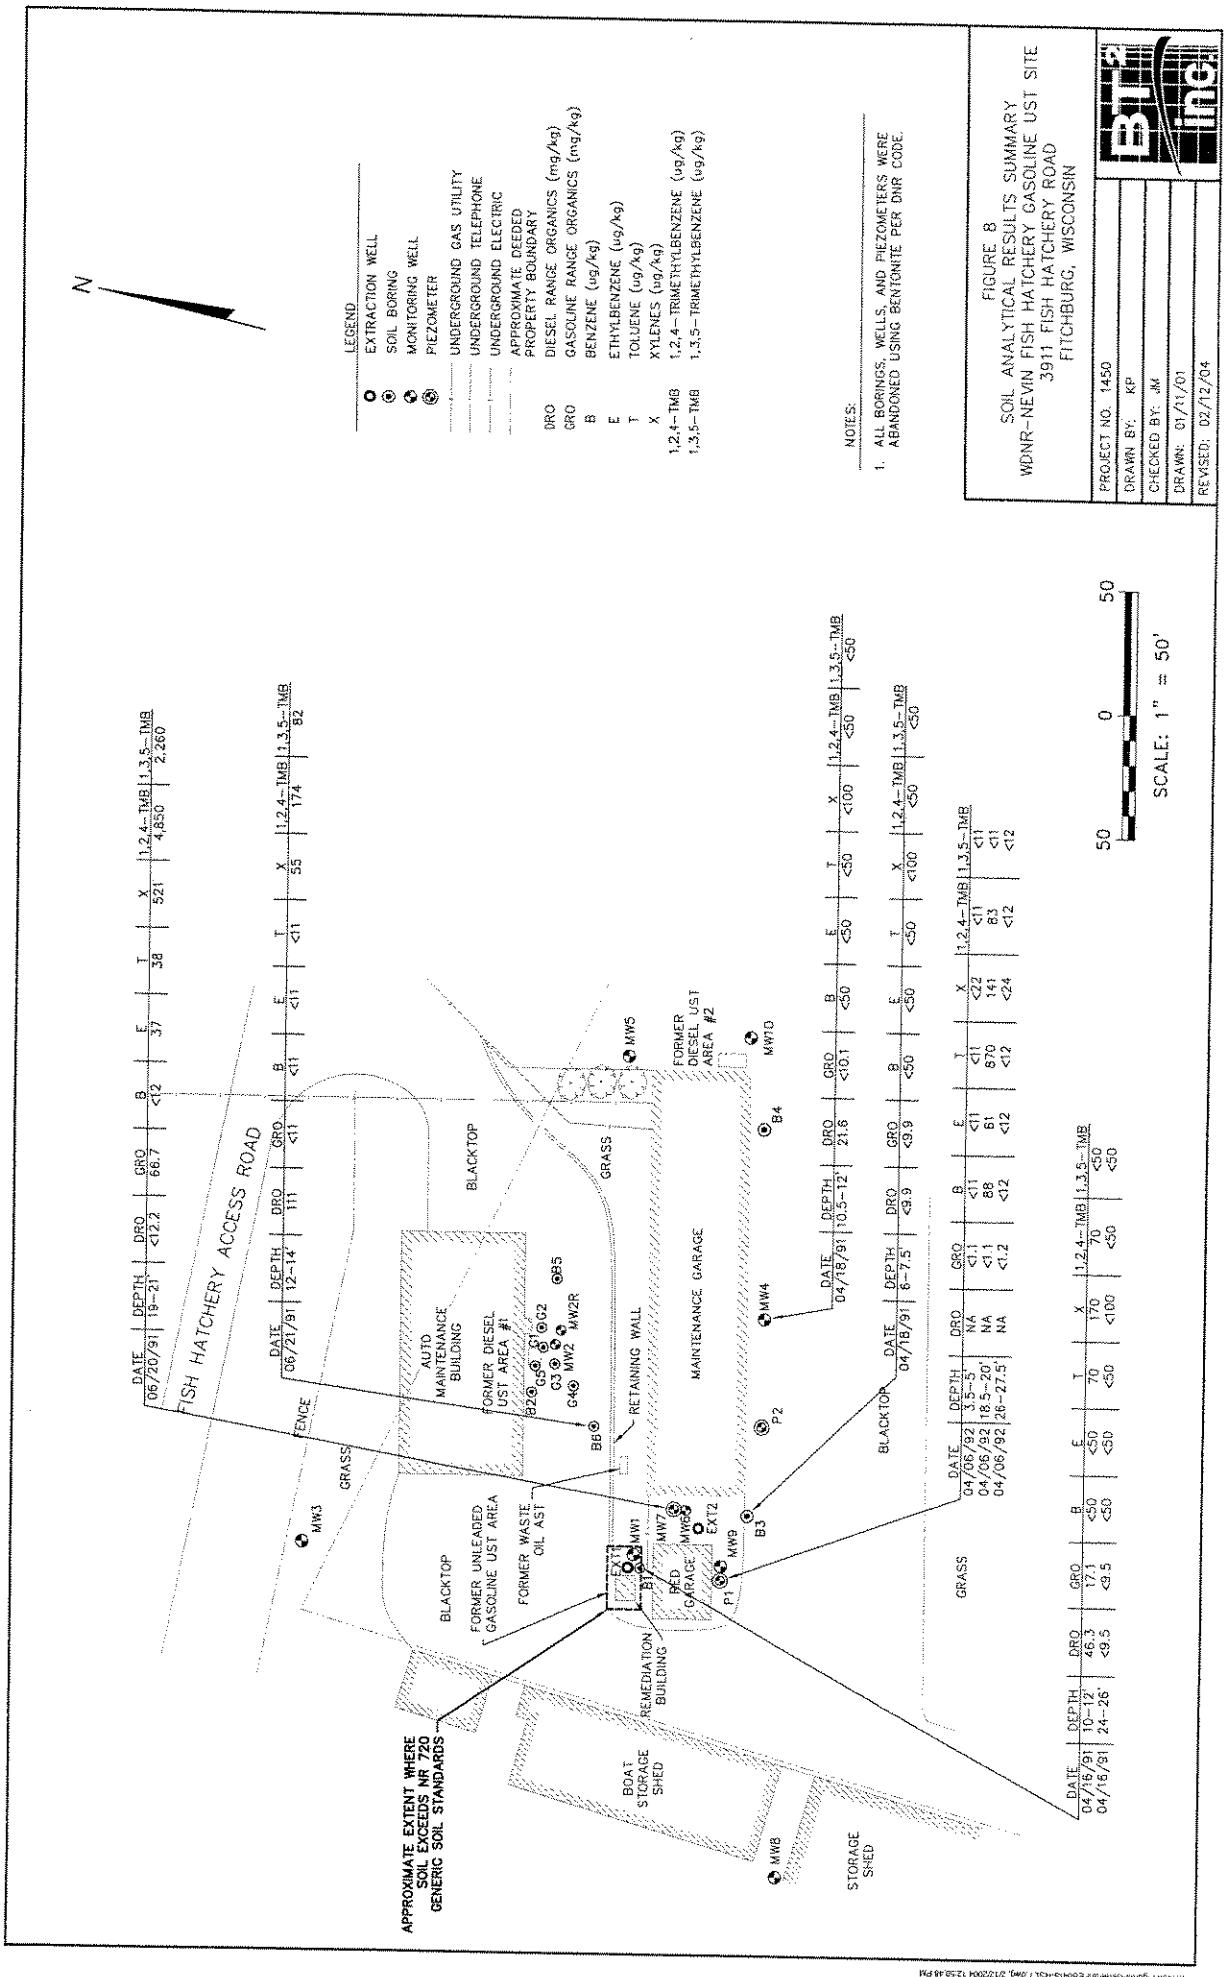

3. The groundwater extraction system was started on December 19, 1994, and was shut down on December 11, 1997.

CHECKED BY: JM	DRAWN: 01/10/03

February 12, 2004

To: Wisconsin Department of Natural Resources

Subject: Statement that all Legal Descriptions for Properties within the Contaminated Site Boundaries have been Included
WDNR – Nevin Fish Hatchery
Gasoline Underground Storage Tank Site
3911 Fish Hatchery Road, Fitchburg, WI 53711
Commerce # 53711-5397-11
BRRTS # 03-13-000518
BT² Project #1450

To Whom it May Concern:

To the best of my knowledge, I believe that with the submittal of the attached property information, the legal description for each property within, or partially within the contaminated site boundary has been included with the geographical information system (GIS) registry packet, as required for site closure.

The attached property information includes:

- Deed, containing legal description and map for property located within the Nevin Fish Hatchery at 3911 Fish Hatchery Road, Fitchburg, Wisconsin (Wisconsin Department of Natural Resources property, Vol. 383, Page 492, Dane County Register of Deeds) (**Attachment**).

If you need additional information, please contact me at (608) 264-9215.

Sincerely,

Doug J. Haag, Realty Operations Chief
Wisconsin Department of Natural Resources
